

IMAGE HOME WARRANTY GUIDE

Maintenance and Care Instructions

Image Home LVP floors are among the highest performing flooring available, to keep the lasting look and feel of your investment for as long as possible, we recommend that you:

DO:

- Wipe up spills as soon as possible. Never use highly abrasive scrubbing tools on the floor.
- Vacuum or dust mop to remove loose dirt or grit. When vacuuming, we recommend using the wand attachment on your vacuum.
- Spot clean with water-based LVP floor cleaner.
- Keep pets' nails trimmed to avoid excess scratching.
- Use chair protectors under furniture and chairs. Protectors made from Teflon are best. (Felt pads are not recommended.)

DON'T:

- Flood the floor with water or cleaner.
- Use a steam mop to clean the LVP. (Steam can damage the adhesive on vinyl flooring by making its way between seams, causing moisture damage.)
- Use polishes, and waxes of the "mop and shine" type of products – they may leave residues and or dull your floor.
- Use any abrasive cleaners or scrubbing tools- Never use any of the following products on your floors:
 - ammonia-based cleaners, mineral spirits, acrylic finishes, wax-based products, detergents, bleach, polishes, oil soap, abrasive cleaning soaps, acid materials such as vinegar.
- Use rolling casters as they can damage the floor.
- Drag furniture or appliances across the floor.

PROACTIVE PROTECTION FOR YOUR FLOOR:

- When moving appliances or heavy furniture, lay a plywood panel on your floor and "walk" the item across it. This protects your floor from scuffing and tears.
- Use floor protectors on furniture to reduce indentation. As a general rule, the heavier the item, the wider the floor protector that will be needed.
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home. We suggest a non-staining vinyl-backed mat or a woven rug that is colorfast.
- Avoid exposure to long periods of direct sunlight. Close blinds or drapes during peak sunlight hours.
